

Please provide me with the list of prompts you want me to randomly select from!

Once you give me the list, I can create a function that will randomly choose one for you.

If you're preparing for the [NSE4_FGT-7.2](#) exam, I can help you generate prompts that will test your knowledge on a variety of topics. I can also help you find practice questions and study materials that will help you prepare for the exam.

To get started, simply provide me with a list of prompts that you want me to randomly select from. I will then create a function that will randomly choose one of these prompts for you.

For example, you could provide me with a list of prompts like this:

- What is the difference between a firewall and an intrusion detection system?
- How do you configure a VPN on a FortiGate device?
- What are the different types of FortiGate security policies?
- How do you troubleshoot a FortiGate connection?
- What are the different types of FortiGate virtual machines?

Once you provide me with a list of prompts, I will create a function that will randomly choose one of these prompts for you. This will help you prepare for the [NSE4_FGT-7.2](#) exam by providing you with a variety of questions and scenarios to practice on.
