

PSY - 512 - Psychology of Gender and Sexuality

Course Modification and/or Reactivation

Proposal Information

Course modification form can be used to change credit hours, add/remove a course as a GUCR, add/remove cross-listed courses, and/remove pre-requisites, etc.

New course titles and significant course description changes require inactivation of the original course and proposal of a new course.

Introduction and Rationale*

Course was listed as variable credit to align with a previous program director's desires. It will only be offered as three credits, so we are just aligning the catalog with actual practice.

Department:*

Psychology Department

Prefix:*

PSY

Code:* 512

Course Type*

Psychology

Course Title:* Psychology of Gender and Sexuality

Credit Hours:

3 credits

Is this a Graduate course?* Yes No

Is this a reactivation of a currently inactive course?* Yes No, the course is currently active

Course Type*

Psychology

Course Title:* Latinx Psychology

Credit Hours:

3 credits

Is this a Graduate course?*

Yes

No

Is this a reactivation of a currently inactive course?*

Yes

No, the course is currently active

Course Description:*

The purpose of this course is to examine issues regarding Latinx population within a cultural context. This includes focusing on the environmental context Latinx people face and how that affects their psychosocial development. The course also aims to develop knowledge and understanding of literature regarding interventions and research with Latinx. Topics covered include: culture, acculturation, ethnic identity development and self-identification, gender role socialization, family and values, educational achievement, religion and spirituality, therapy, and research. Students are encouraged to bring their knowledge and experience to integrate into the class.

SOWK - 583 - Evidence Based Therapeutic Skills

New Course Proposal

Proposal Information

Introduction and Rationale*

The MSW Program would like to add a new elective course in the fall. The elective course will provide more options to students, especially those taking the clinical route.

Department:*

Social Work Department

If a new prefix is needed, email your request to the Registrar prior to completing this form.

Prefix:*

SOWK

Code:* 583

Course Type*

Social Work

Is this a Graduate Course *

Yes No

Course Title:* Evidence Based Therapeutic Skills

Credit Hours:

3 credits

Course Description:*

This skills-based course is designed to introduce students and early-career clinicians to the foundational tools of effective therapy. Emphasizing evidence-based practices, the course covers essential clinical components including assessment techniques, documentation, and treatment planning. Special focus is placed on the principles of Cognitive Behavioral Therapy (CBT). Students will have a solid grounding in therapeutic fundamentals and increased readiness for clinical work.

Course prerequisites:

No prerequisites. Needs to be a graduate student

Course corequisites:

No corequisites

Is this course currently cross-listed with another course? If yes, please provide details.

NA

Does the proposed course have any specialized resource requirements (e.g. information technology, library, facilities, and human)? If so, how are these needs being addressed?

NA

Submit for GUCR Consideration Yes No

Identify Heritage Student Learning Outcomes and/or Program Learning Outcomes that the proposed course will meet.

1. To prepare students with knowledge, values, skills, and cognitive and affective processes on clinical skills.
