

S/4HANA Cloud, Public Edition - Sourcing and Procurement: My Journey to Success with the C_TS462_2021 Exam

The SAP Certified Application Associate - SAP S/4HANA Cloud, public edition - Sourcing and Procurement (**C_TS462_2021**) exam has been a significant milestone in my career. Preparing for it was a journey filled with challenges and triumphs, and the results were well worth the effort. Let me walk you through my experience, addressing some of the key questions you might have about this exam and how to ace it.

What's the Exam Like?

The **C_TS462_2021** exam is designed to test your knowledge of SAP S/4HANA Cloud, public edition's sourcing and procurement processes. It covers a wide range of topics, including:

Master Data

You need to understand the different master data types, how they're maintained, and their impact on the procurement process.

Procurement Processes

The exam assesses your knowledge of various procurement processes, such as purchase requisition creation, purchase order creation, goods receipt, and invoice verification.

Supplier Management

This involves understanding how to create and manage supplier master data, perform supplier evaluations, and negotiate contracts.

Analytics and Reporting

You need to understand how to analyze procurement data to identify areas for improvement and generate reports. You can find helpful practice materials at [Certkillers](#) to prepare for the exam.

How Hard is the Exam?

The difficulty of the exam depends on your prior experience with SAP S/4HANA Cloud and your dedication to preparing. I'd say it's challenging, but definitely achievable with proper study.

What Resources Did You Use?

I used a combination of resources to prepare for the exam:

- **Official SAP Documentation:** This is a must-have resource. The documentation provides comprehensive information on all aspects of S/4HANA Cloud, public edition's sourcing and procurement functionalities.
- **SAP Learning Journeys:** I highly recommend using the Learning Journeys available on the SAP Learning Hub. They provide structured training courses and interactive exercises

to help you understand the concepts.

- **Practice Exams:** There are numerous practice exams available online that can help you assess your knowledge and get comfortable with the exam format. I found the practice exams on [Certkillers](#) very beneficial.

What Were Some of the Key Challenges You Faced?

One of the biggest challenges I faced was the vast amount of information to cover. I found it difficult to prioritize what to focus on. To overcome this, I created a study plan and consistently reviewed my progress.

What Advice Would You Give to Others Taking the Exam?

- **Start Early:** Don't underestimate the amount of preparation required. Start studying well in advance of the exam date.
- **Create a Study Plan:** A structured plan will help you stay focused and track your progress.
- **Practice, Practice, Practice:** The more you practice, the more confident you'll feel going into the exam.
- **Take Breaks:** It's important to take breaks during your study sessions to avoid burnout.
- **Believe in Yourself:** You have the knowledge and skills to succeed. Just stay focused, maintain a positive mindset, and you'll do great!

The **C_TS462_2021** exam is a valuable certification that can enhance your career prospects in the SAP landscape. With the right preparation and determination, you can achieve success and unlock exciting new opportunities.
