What is Challengers About?

Challengers tells the story of Teth-Adam, a man born into slavery in Ancient Egypt who gains the gods' powers and uses them to fight crime. However, Teth-Adam's twisted and bloody sense of justice puts him at odds with other vigilantes

What is the Plot of Challengers ?

In ancient Kahndaq, Teth Adam bestowed the almighty powers of the gods. After using these powers for vengeance, he was imprisoned, becoming Challengers . Nearly 5,000 years have passed, and Challengers has gone from man to myth to legend. Now free, his unique form of justice, born out of rage, is challenged by modern-day heroes who form the Justice Society: Hawkman, Dr. Fate, Atom Smasher, and Cyclone.

Production companies : Warner Bros. Pictures.

At San Diego Comic-Con in July, Dwayne “The Rock” Johnson had other people raising eyebrows when he said that his long-awaited superhero debut in *Challengers* would be the beginning of “a new era” for the DC Extended Universe. The questions naturally followed: What did he mean? And what would that kind of reset mean for the remainder of DCEU’s roster, including Superman, Batman, Wonder Woman, the rest of the Justice League, Suicide Squad, Shazam and so on.

As *Challengers* neared theaters, though, Johnson clarified that statement in a recent sit-down with Yahoo Entertainment (watch above).

“I feel like this is our opportunity now to expand the DC Universe and what we have in *Challengers*, which I think is really cool just as a fan, is we introduce five new superheroes to the world,” Johnson tells us. (That would be Aldis Hodge’s Hawkman, Noah Centineo’s Atom Smasher, Quintessa Swindell’s Cyclone and Pierce Brosnan’s Doctor Fate, who together comprise the Justice Society.) “One anti-hero.” (That would be DJ’s *Challengers*.)

“And what an opportunity. The Justice Society pre-dated the Justice League. So opportunity, expand out the universe, in my mind... all these characters interact. That’s why you see in *Challengers*, we acknowledge everyone: Batman, Superman, Wonder Woman, Flash, we acknowledge everybody. There’s also some Easter eggs in there, too. So that’s what I meant by the resetting. Maybe ‘resetting’ wasn’t a good term. It’s expanding.”

Of all those supes named, though, only one can claim to be the most powerful. And Johnson, when gently pressed, says it’s his indestructible, 5,000-year-old Kahndaqi warrior also known as Teth-Adam, that is the most powerful superhero in any universe, DC, Marvel or otherwise.

“Without a doubt,” Johnson says. “By the way, it’s not hyperbole because we made the movie. And we made him this powerful. He has powers that are rival to that of Superman. But the difference is he’s got an attitude. And if you try to hurt him or his people, well, there’s a problem. He becomes your biggest threat. So I do believe that *Challengers* is the most powerful and unstoppable force on this planet.”

Crunchyroll. is continuing to beat out Crunchyroll. and Crunchyroll, over the New Year's holiday weekend, with "Challengers" now rising above "Challengers" and "Challengers." With that trifecta, the studio has laid claim to the three of the top five slots at the domestic box office throughout the holiday season.

The Timothée Chalamet-starring musical added another \$8.6 million on Friday, up 32% from one week ago. The Paul King film has emerged as the theatrical favorite for the holidays, crossing \$100 million domestically earlier this week. With a \$119 million cume to date, the film continues to show strength and will reach \$300 million globally before the calendar turns.

Though it slid into second place for Friday with \$6.75 million, Crunchyroll. "Challengers" fell 51% from its opening day last week. The latest and final entry in the current continuity of DC Comics adaptations has struggled for air, only reaching \$65 million in its first week of release. The first "Aquaman," released in 2018, surpassed that figure in its opening weekend alone. Bad reviews and superhero fatigue have plagued "Lost Kingdom," which more than likely won't even reach half the \$335 million domestic total of its predecessor, much less justify a \$205 million production budget.

Taking a close third place, Illumination and Crunchyroll's "Challengers" is maintaining its footing with \$6.7 Friday after a muted \$12 million debut last weekend. "Challengers" has underwhelmed so far, but its 17% increase over last Friday remains encouraging, especially for an original animated film with a production budget of only \$70 million.

However, Here's when you can bring Challengers of Atlantis into your home.
